SHOCK ABSORBER

CATALOGUE 2026

GSP AUTOMOTIVE GROUP

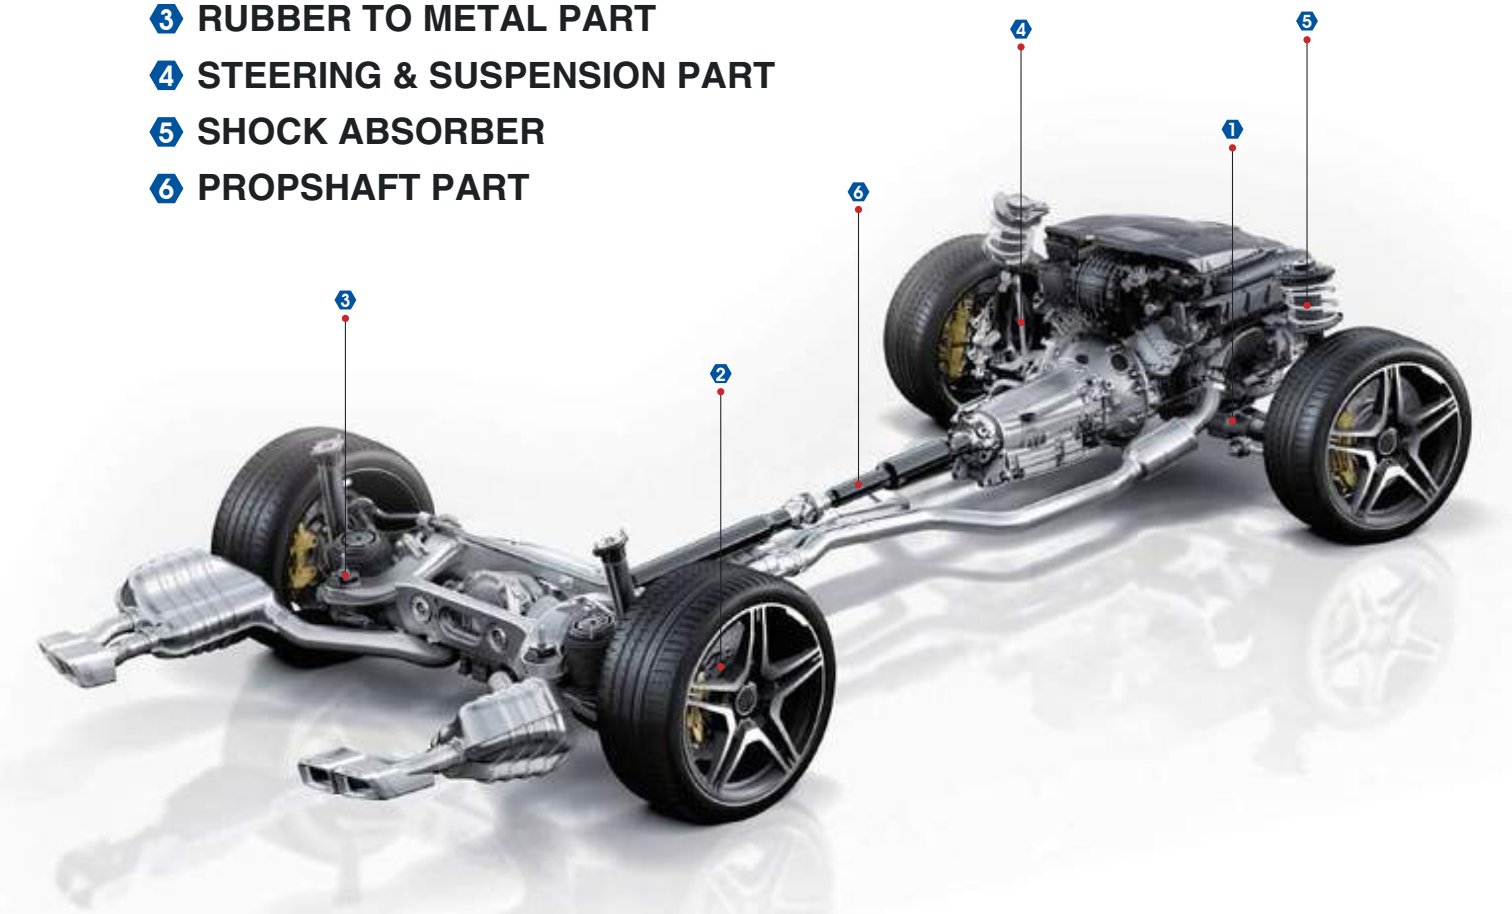

GSP Automotive Group is a leading manufacturer for automotive parts for the worldwide aftermarket. Since 1985, GSP continues to produce constant velocity joints, drive shafts, hub assemblies, rubber-to-metal parts as well as steering & suspension parts.

The GSP team supports over 120 countries and counting. With our diverse range of native professionals, we bring customer care and expertise to each market.

WIDE RANGE PRODUCTS

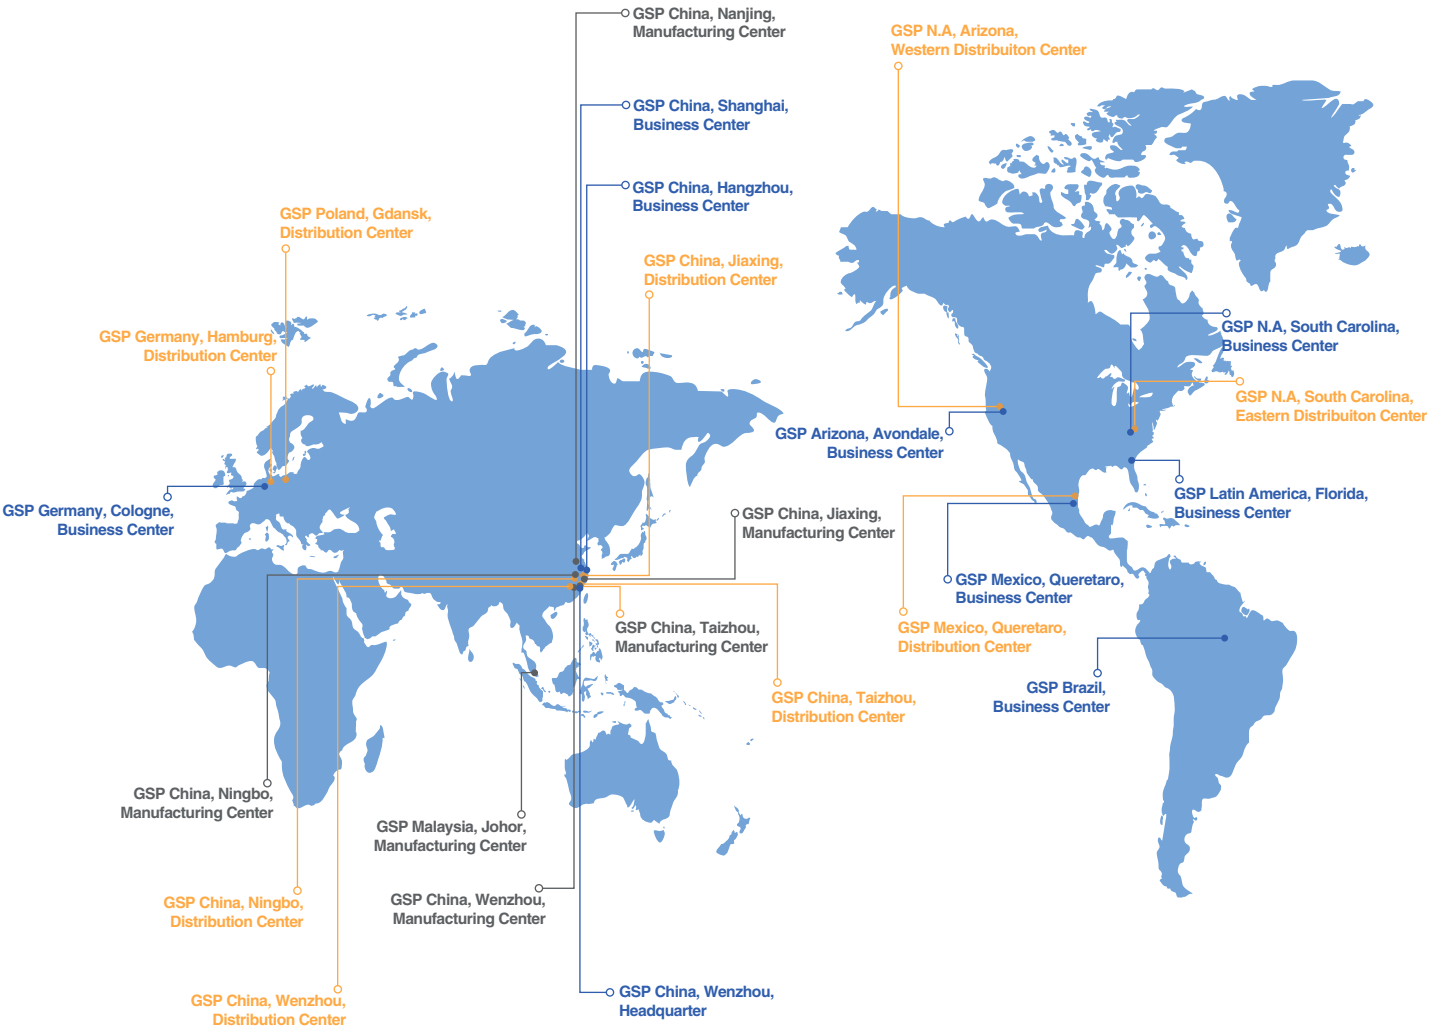

1. DRIVELINE
2. WHEEL BEARING
3. RUBBER TO METAL PART
4. STEERING & SUSPENSION PART
5. SHOCK ABSORBER
6. PROPSHAFT PART

- Models covered over 95% of the worldwide automotive market
- One-stop solution for the automotive aftermarket
- Small batch sourcing with a variety of categories

GSP®

WORLDWIDE LOCATION

- Manufacturing Center
- Distribution Center
- Business Center

PREMIUM QUALITY

GSP has been certified by ISO 14001, ISO 45001 and IATF 16949, etc.With the strict screening and monitoring of the raw material, GSP is carrying out quality control on the whole product production process.

CUSTOMER SERVICES

ISO 14001 ISO 45001 IATF 16949 EAC TecAlliance

Worldwide customer services teams support nine majority languages and provide localized service to customers.

Trackable data from raw material sourcing to sales that offered consistently services to each customer.

GSP®

SHOCK ABSORBERS for an improved driving experience

GSP Shock Absorber, Air Spring Suspension and Air Suspension Strut are now available in Europe.

GSP has introduced a new product group for the European market: Shock Absorber, Air Spring Suspension and Air Suspension Strut. This step is another milestone in the company's endeavor to offer high-quality vehicle components worldwide.

Shock absorbers play an essential role in the safety and comfort of a vehicle and are therefore a crucial component of every car. They absorb and dampen the shocks from the road surface, ensuring a smoother ride. Shock absorbers help to maintain tire contact with the road, improving the vehicle's stability, control and braking performance.

To maintain the performance and safety of the vehicle, it is important to recognize when the shock absorbers need to be replaced. Warning signs include unusual noises such as knocking or rattling while driving, uneven tire wear, swerving or dipping of the vehicle when braking or turning, visible damage or leaking fluid, and a longer stopping distance. These symptoms indicate that the shock absorbers may not be working properly and need to be serviced.

GSP offers the new products for numerous car models, including American, European and Asian vehicles, SUVs, HEVs and EVs.

- Supply of more than 90 car brands
- More than 2400+ SKUs
- Low MOQ adapts to different order requirements
- One-stop delivery for multiple product offerings
- All products are designed according to the OE parameter standard for more durable performance

Advantages of GSP Shock Absorbers

- Meets the OEM specifications
- State-of-the-art coating technology
- Enhanced durability against rust and damage
- High temperature resistance
- Longer service life
- No loss of damping performance

Advantages of GSP Air Suspensions

- Meets the OEM specifications
- Perfect fit, form and function
- Premium quality components
- 100 % force testing
- NOK seals
- TPE material to prevent leakage, deformation and protects against debris

GSP covers a wide range of vehicles already and extends its range continuously.

GSP Products are engineered to OEM specifications for proper fit, form and function.
